### 'Water Works'

Water is essential to life. As humans, we not only drink water, we also use it for cooking, hygiene, recreation and agriculture. Water is a precious resource. This unit provides opportunities for students to develop an understanding of, and appreciation for a precious natural resource. Through investigations, students explore how water is used, where water comes from and how to use it responsibly.

## HASS

### 'Australia and the World'

Students will be learning about Asia and the connections people in Asia have with people in Australia through events, travel and relationships. We will be exploring - family life, school life, environment, geographical location, beliefs, and recreational activities in both Australia and Asia.
