

STUDENTS SHARING ACROSS THE GLOBE

## Email from Jariah Nov 2019

"Today we have officially closed for Christmas holiday. The staff, pupils and workers extend greetings to you at St Michael's and we congregated today for special prayers for your success. We believe we are spiritually together, though great distance apart."  
Mr Jackson Onyonka

## Jariah KCPE results

**KCPE is a national exam written by final year (year 8) students in primary school in Kenya.**

"I happily inform you that Jariah registered a positive improvement in 2019 KCPE results by 36 marks. Thank you because with your assistance we have upward trend of improvement and I promise to continue with the same spirit. The books we received for Grade 1-3 have greatly assisted the learners."  
Mr Jackson Onyonka

## Access to water at Jariah Education Centre

Thanks to the St Michael's Primary School community the students and staff at Jariah Education Centre in Kenya now have access to water on the school campus.

"Jariah Education Centre is so happy and much grateful for the water tank from our partner school St Michael's. May God bless you so much"  
Mr Jackson Onyonka – School Director.

Before the tank installation the students had to walk quite a long way to a river to get water to drink. For security the tank is in a walled enclosure.

**Thank you, St Michael's Primary School**

## Jariah's new challenge

The Kenyan Education Department inspectors visited Jariah last month and have determined that the school must improve their classroom structures, by at least putting in cement floors, to maintain their registration.
